Dear colleagues,

It is a great pleasure for us to announce that the XXI International Conference on Inorganic Chemistry Ukraine (XXI ICICU) will be held at Uzhhorod National University, in Uzhhorod, Ukraine, from June 3 to June 6, 2024. The conference will be organized in hybrid form – both face-to-face and online (participants can make their presentations online on the platform Google Meet).

The Organizing Committee cordially invites you to participate in this event and share information on your scientific achievements with the community involved in inorganic materials science research.

The conference will cover issues on solid state chemistry, solid-state inorganic materials, crystal chemistry, synthesis of new compounds for modern medicine and pharmaceutical chemistry, materials chemistry and physics, atomic and electronic structure of solid inorganic materials, materials for “green” chemistry, etc. The aim of the conference is to create a stage for exchanging the latest research results and sharing information about advanced research methods in this field.

We are sure that our meeting will be scientifically impressive and initiate fruitful discussions, and we look forward to meeting you in Uzhhorod. Please note June 3-6, XXI International Conference on Inorganic Chemistry Ukraine (XXI ICICU) in your agenda and try to reserve time to visit us in Uzhhorod!
